

# ANCIENT HISTORY

**Before 31st March - “How does testing impact the spread of the virus?” *Someone in a meeting***

**- Alex Wimbush, Dom Calleja and I (with the help of many others) begin to create an epidemiological model to answer this question**

**2nd April - Matt Hancock says in a press conference “No test is better than a bad test”**

**10th April - First draft of paper is written**
